

Your swimming pool, another place for you to live

## JUST DOSING®

- Pool treatment by disinfectant dosage and pH regulation
- Simple & Efficient
- A Bargain!!!

The natural care for clear water

# JUST DOSING®

Automatic dosage

**JUST DOSING®** controls the two main functions of your water treatment: disinfection and automatic pH regulation.

All you need is to adjust the dose of disinfectant be injected per/hour, the same with the dose of algicide with each filtration renewal (3 pump models): **JUST DOSING®** will diffuse all day long the necessary quantity of disinfectant. Any rise of filtration time due to an elevation of water temperature will result in an augmentation of injection doses automatically, without any intervention on your part!

Besides, **JUST DOSING®** automatically regulates your pool water pH. Thanks to its probe which analyses your pH water continuously and to the corrective liquid injection **JUST DOSING®** maintains the pH at an ideal level (7 to 7.4).

Easy to install and use, **JUST DOSING®** guarantees you an efficient disinfection and great swimming comfort.

— **1 single model for pools up to 160m<sup>3</sup>**

— **4 versions :**

- Versions 1, 2, or 3 peristaltic pumps (disinfectant, pH, & algicide)
- Version 1: one peristaltic pump (pH) and one electro vane for the distribution of disinfectant pellets

— **Ready to Use:** Shipped with its pH probe factory calibrated.

— **Hourly dosage of disinfectant & algicide with each start (3 pump models adjustable from 0 to 990 ml)**

— **Monitoring of your pool's volume for better efficiency**

— **Option of simple adjustment or accurate calibration of the pH probe**

— **Automatic pH regulation with monitoring devise adjustable from 6.8 to 7.6**

— **Permanent digital monitoring of pH and doses to be injected**

— **Choice of pH corrector, pH devise, and manual injection**

— **Alarms:** high or low pH/ pH over dosage

— **Utilize with a corrective pH product, acid or a basic, sold by your pool retailer**

— **Compatible with all filtration systems & pool linings**

— **Can be installed on new or existing pools**

— **Materials & accessories guaranteed for 2 years from date of purchase (except for pH probe)**

*Option: pH probe guaranteed 1 year*

*Option: Empty can alarm for pH correcting agent*

*Option: filtration controller with **SIMPLEO®***
